

WAY PURE® 32

DESCRIPTION

Way-Pure® 32 is the first coolant friendly way oil option available.

Way-Pure® 32 waylube is a premium blend of highly refined lubricating oils and a non-corrosive, anti-wear extreme pressure package specifically designed to provide maximum lubricity and long service life.

Way-Pure® 32 waylube does not contain conventional extreme pressure additives such as phosphorous, zinc and sulfur and thus will not contribute to the premature degradation of metalworking fluid systems.

Way-Pure® 32 waylube is the cost-effective product of choice when the application calls for an environmentally friendly, premium, anti-wear, long life, way oil with an ISO grade of 68.

Way-Pure® 32 waylube meets the requirements of Cincinnati Milacron specifications P-47.

PRODUCT CHARACTERISTICS

Appearance: Amber

Viscosity: 28.8 – 35.2 cSt @ 40°C

Revision 3

**OTHER SPECIFIC BENEFITS OF WAY-PURE® 32
INCLUDE:**

- ELIMINATES “MONDAY MORNING ODOR”
